## BONES.

### ANCHYLOSIS.

True Bony of the Elbow Joint, exclusive of the Radius,.....	A 12
do of the Elbow Joint, including the Radius,.....	" 34
do of the Elbow Joint, Section of Bones,.....	" 30
do of the Elbow Joint, exclusive of the Radius, with necrosis and exostosis of the Humerus,.....	" 10
do of the Elbow Joint, with extensive disease and exostosis, principally of the Humerus,.....	" 11
do of the Radius and Ulna, near the elbow, with disease of both extremities of the bones,.....	" 149
do of the Radius, Carpus and metacarpus, with extensive disease of the joints and destruction of the extremity of the Ulna. Bones entire,.....	" 32
do of Phalanges of the middle finger,.....	" 5
do of the Hip Joint,.....	" 1
do of the Knee Joint,.....	" 3
do of the Knee Joint, with dislocation outward of the Patella and Tibia. Section of bones,.....	" 143
do of the heads of the Tibia and Fibula,.....	" 7
do of the heads of the Tibia and Fibula, with disease of the heads of both,.....	" 6
do Patella,.....	" 181
do of the Tibia and Fibula, above and below. Bones entire,.....	" 35
do of the Calcis and Astragalus,.....	" 13
do of the Cuneiform and second Metatarsal, all belonging to the same foot,.....	" 15
do of the Carpus. Arm attached,.....	C 141
do between the second and third cervical vertebra, without alteration in form,.....	A 25

## ANCHYLOSIS.

True Bony between the second and third cervical vertebra, with atrophy of the body of the second,.....	A 26
do      between the second and third cervical vertebra, with atrophy and exostosis of the body of the third,.....	" 21
do      of the bodies and processes of two dorsal vertebræ, "	28
do      of the bodies of three dorsal vertebræ,.....	" 29
do      of the bodies of five dorsal vertebræ, by bony ledges and exostosis,.....	" 8
do      of the bodies of two dorsal vertebræ, by bony ledges,.....	I 4
do      seven vertebræ. Four dorsal united by a bony ledge of exostosis, and three lumbar united by very irregular exostosis,.....	A 2
do      of the bodies of three lumbar vertebræ,.....	" 17
do      of the bodies of two lumbar vertebræ, with caries,.	" 18
do      of the bodies of two lumbar vertebræ, with absorp- tion of the body of the lower,.....	" 16
do      of the processes of the lower lumbar vertebræ, with the Sacrum,.....	" 19
do      of the bodies of two lumbar vertebræ, with absorp- tion of both from previous disease,.....	" 20
do      between a dorsal vertebra and a rib,.....	" 22
do      between two ribs, by band from the necks,.....	" 24
do      between the first rib and sternum, both sides,....	" 23
do      between the ribs and vertebræ of a horse,.....	" 9
do      between the Sacrum and Ilium,.....	" 179
do      between the do      do      .....	" 178
do      between the Occiput and Atlas. Skull,.....	B 153
do      of lumbar vertebræ, on a stand,.....	C 147

## CARIES.

Of the Calvarium. Syphilis,.....	C 5
do    Palate and Vomer. Skull entire,.....	B 9
do    do      do    and Turbinated Bones from Lupus,.	C 164
do    Calvarium. Syphilis,.....	B 78
do    Facial and Cranial Bones, Syphilis. Naval Hospital,..	C 140
do    Atlas Arch,.....	" 120

## CARIES.

Of the Os. Frontis, over the Right Orbit. Section,.....	B	83
do do from Ulceration of the Scalp,.....	C	2
do do and Parietal Bones,.....	"	3
do do .....	B	152
do Superior Maxillary Bone. Section,.....	D	37
do Inferior do Skull attached,.....	C	125
do do do Ramus,.....	B	84
do Alveoli. Cancerum Oris. Upper and Lower,.....	C	11
do do do Lower,.....	"	12
do do do do .....	"	13
do Sternum, .....	"	113
do do mounted on a board,.....	"	155
do Clavicle. Sternal extremity,.....	"	45
do do Body,.....	"	46
do do Acromial extremity,.....	"	179
do Hip Joint with interstitial absorption. Coxalgia,....	C	7
do do do do do .....	"	9
do do Great destruction of bone,.....	"	8
do do Head of the bone remaining in acetabulum,.	B	109
do do do do do .....	C	115
do Femur after amputation. Entire stump,.....	"	83
do do Head entirely destroyed. Coxalgia,.....	"	55
do do Extremities,.....	"	94
do do do .....	"	95
do do Condyles,.....	C	74
do do Extremity of a stump,.....	C	109
do do Head entirely destroyed,.....	"	87
do do Condyles,.....	D	73
do do do .....	"	74
do Tibia. Extremities and centre,.....	C	110
do do do do .....	"	82
do do do .....	"	36
do do do .....	"	96
do do do .....	"	97
do do do .....	"	108
do do Head,.....	"	56
do do do Section,.....	"	106
N. B.—94, 95, 96, 97 and 98, case C, all from the same subject.		

## CARIES.

Of the Tibia head section.	Serofulous,	B 153
do do do	Cloaca,	C 135
do Fibula.	Shaft,	D 21
do do Head,		" 19
do Tarsus.	Foot Articulated,	C 121
do Os Caleis.	Anterior face,	D 18
do do	Entire bone,	" 65
do do Body,		C 41
do do	Foot Articulated,	" 119
do Astragalus.	Entire bone,	" 62
do Scaphoides.	do	" 60
do Cuboides.	do	" 58
do Cuneiform.	do	" 59
do Metatarsal bone.	Extremities,	" 52
do do do	do	" 49
do do do	do	" 47
do do do	do	" 61
do do do	do	" 124
Of a Phalangeal bone.	do	" 40
do do do	do	" 66
Of the Humerus.	do	" 98
do Humerus. Syphilitic.	Condyles,	" 34
do do do	Shaft,	" 54
do do do	Shaft above condyles,	B 124
do do do	do do	C 93
do do do	do do	" 95
do Elbow joint,		A 180
do Radius.	Upper third,	C 92
do do	Upper half including the head,	" 37
do do	do	" 35
do do	Lower part,	" 180
do Ulna.	Lower part,	" 181
do Metacarpus,		D 44
do do	do	" 45
Of a Rib. The neck,		C 105
Of the Spine.	Absorption of bodies of vertebræ,	T 40
do do	Ankylosis and posterior curvature. Skeleton, I	28
do do	Absorption of the bodies of the vertebræ,	" 11

## CARIES.

Of the Spine. Absorption of the bodies of the vertebrae, . . . . .	I	10
do do do do do do . . . . .	"	21
do do Ankylosis and Posterior curvature, . . . . .	"	2
do do Posterior curvature and Ankylosis, . . . . .	C	168
do do Ankylosis and Posterior curvature, . . . . .	C	169
do Vertebræ, with destruction of the lower, . . . . .	I	23
do do do bodies & partial anky., . . . . .	"	15
do do do do do do . . . . .	"	9
do do with partial destruction, . . . . .	"	1
do do do . . . . .	"	19
do do do . . . . .	"	22
do do Last two Lumbar. Pelvis attached, . . . . .	"	16
do do with Rachitis. Entire skeleton, . . . . .	"	29
do do Sequestrum in the body of one, . . . . .	C	123
do Sacrum, . . . . .	"	66
do extremities of stumps. Box, . . . . .	"	43

## MISCELLANEOUS.

Section of a face from a battle-field, . . . . .	B	50
do of Elephant's Tusk, with a slug in it, . . . . .	"	91
do do do ball in it, . . . . .	"	92
do do do Carious, . . . . .	"	52
Calvarium deeply grooved by Meningeal Arteries, . . . . .	"	41
Specimen of welded Tortoise shell, . . . . .	"	42
Specimen of welded Horn, . . . . .	"	43
Hypertrophy of Skull. Trephined, . . . . .	K	2
Frosted feet, . . . . .	C	158
Bone developed in the Gastrocnemius muscle, . . . . .	"	152
Horse's Hoof, showing exostosis, . . . . .	"	153
Ilium of a Pig, showing change in the Acetabulum, . . . . .	B	99
Model Head. Jaw articulated, . . . . .	C	12
Model tumor of the Inferior Maxillary, . . . . .	A	107
Jaw showing angle produced by old age, . . . . .	B	85
Jaw with Tartar incrustations on the teeth, . . . . .	"	89
Calvarium of an Idiot, showing exostosis upon the inner surface of the Frontal Bone, . . . . .		
Icthyosis Cornea, from Dr. Sands, N. York. Fine specimen, . .		

## DISLOCATIONS.

Of the Lower Jaw, showing new socket. Entire Skull,.....	B 5
do Sacrum in an entire pelvis.....	B 147
do Head of the Femur, upward,.....	" 120
do Elbow, both bones of the fore-arm inward,.....	B 106
do do with Fracture of the Condyles of the Humerus.	
Scapula and Hand articulated,.....	C 203

## DEFORMITIES.

Bent Femur, from a bullet shot. Ball still in,.....	C 39
do do Long. Entire Bone,.....	B 126
do do Shorter. do .....	" 127
do Tibia, Longitudinal Section,.....	" 67
do de Entire Bone,.....	" 66
do do and Fibula. Entire Bones,.....	" 55
do Humerus. Small,.....	C 24
do Femur. Rachitis,.....	" 134
do do showing Hypertrophy and Atrophy. Longit. Section,.....	" 89
do Tibia, showing Hypertrophy and Atrophy. Longitud. Section. Fibula exostosed and Femur also bent, B	24
do Humerus, Radius and Ulna. Bones articulated. From the same subject as specimen B 24,.....	" 78
Deformity of the Chest from corsets. Entire Skeleton,.....	I 18
do do Spine, Lateral Curvature,.....	" 14
do do Lower Extremity. Arrest of development,.	" 26
do do Hand,.....	B 62

## FRACTURES.

Of the Cranium, Horizontal Fissure. Sawed Cranium,.....	B 2
do do do Entire Skull,.....	" 8
do do Jno. Johnson. Section,.....	" 39
do do Depressed. Triangular Section,.....	" 15
do do Camerated. Calvarium,.....	" 79
do do Infant's Skull,.....	" 46
do do Old Indian Skull,.....	" 6
do do Partly united,.....	" 80
do do Depressed,.....	C 116
do do Left Parietal Bone. Camerated,.....	" 200

## FRACTURES.

Of the Cranium, Inner Table. Os Frontis,.....	C 201
do do Frontal and Parietal Bones. Left side,....	" 202
do Nasal Bones. Section of Skull,.....	B 1
do do Skull. Jaw also fractured.....	" 148
Of the Nasal Bones and also Zygoma. Section of a Skull,...	N 4
do do Skull entire,.....	C 198
do Superior Maxillary and Malar Bones,.....	B 7
do do Malar Bone removed. Sect. Skull,..	" 1
do Zygoma,.....	" 148
do Inferior Maxillary. United by Seton,.....	" 85
do do near the angle. Ununited,.....	" 90
do do do Symphysis,.....	" 89
do do do Skull attached,	" 148
do Clavicle, near the Middle. Union with deformity,....	B 68
do do do do do .....	" 105
do do do do do .....	" 134
do do Three mounted on a board,.....	C 156
do do Union without deformity,.....	" 166
do Sternum. United,.....	A 130
bo First Rib, near the Sternum. United,.....	B 33
do Long do do do do .....	" 34
do do do Angle. do .....	" 12
do Rib of an Ox.	do .....
do do do	" 13
do First Rib.	do .....
do .....	C 25
Of a long Rib, with Exostosis.	do .....
do do .....	B 35
do do .....	" 36
do do Overlapped. United,.....	" 37
do do do do .....	C 163
do Rib in two places. Good Union,.....	B 49
do floating Rib. Slight overlapping,.....	" 32
do Rib, .....	C 170

Tumor of the Parotid Gland, . . . . .	40
Lipoma, . . . . .	41
Polypus Nasi, . . . . .	42
Aneurism of the Aorta, . . . . .	43
Disease of the Hip Joint, . . . . .	44
Dislocation of the Hip Joint, . . . . .	45
Tumor of the Neck, . . . . .	46

## C A L C U L I.

The Calculi below enumerated, have been but partially analysed, and the catalogue is therefore to be regarded as a mere list for purposes of identification. The numbers correspond with those upon the boxes.

### BILIARY CALCULI.

1.	Cholesterin,	.....	5	fragments.
2.	do	.....	42	calculi.
3.	Bile pigment. Black,	.....		sand.
4.	Cholesterin,	.....	2	fragments.
5.	do	Pyramidal,	21	calculi.
6.	do	.....	4	do
7.	do	Pyramidal,	3	do
8.	do	Nucleus, brown pigment,	6	do
9.	do	.....	3	calculi, 3 fragments.
10.	do	.....	29	calculi.
11.	do	Pyramidal,	40	do
12.	do	do	13	do
13.	do	.....	19	fragments.
14.	Bile pigment,	.....		sand.
15.	Cholesterin,	.....	4	calculi.
16.	do	.....	3	fragments.
17.	do	.....	2	do
18.	do	and pigment mixed,	6	calculi, 2 do
19.	do	Nucleus, black pigment,	2	do
20.	Brown and red pigment,	.....	13	do
21.	Cholesterin,	.....	31	calculi.
22.	do	Edged with brown pigment,	5	do
23.	do	Pyramidal,	35	do
24.	do	.....	2	fragments.
25.	do	Nucleus, brown pigment,	2	do
26.	do	Edged with brown pigment,	3	calculi.
27.	do	do	11	do
28.	do	.....	2	fragments.

## BILIARY CALCULI.

29.	Cholesterin,		2 fragments.
30.	do		3 do
31.	do		7 calculi.
32.	do		6 do
33.	do		2 fragments.
34.	do		2 do
35.	do		2 do
36.	do		2 do
37.	Pigment. Brown,		5 do
38.	Cholesterin and brown pigments, mottled,	5 calc.,	2 do
39.	do		2 do
40.	do	Nucleus, black pigment,	2 do
41.	do	Yellow color,	2 calculi.
42.	do	Mottled,	1 calculus.
43.	do		2 calculi.
44.	do	Nucleus, black pigment. From the gall bladder of J. Green, cut for vesical stone, by J. Par- coast. 1852,	3 fragments.
45.	do	Edged with pigment. Brown, . . .	4 calculi.
46.	Pigment.	Grayish black. Passed by rectum, . . .	sand.
47.	do	Jet black, . . .	2 calculi.
48.	Cholesterin.	Yellow, . . .	8 do
49.	do	Edged with green coloring pigment,	2 fragments.
50.	do	and black pigment, in concentric lamellæ, . . .	1 fragment.
51.	Pigment.	Black, . . .	sand.
52.	Cholesterin, and pigment.	Green, . . .	1 fragment.
53.	Pigment.	Black, . . .	2 fragments.
54.	do	do Forming a nucleus, with a layer of phosphate of lime, exter- nally, . . .	1 do
55.	Cholesterin calculi in situ, filling a gall bladder,.		
	Total—	55 specimens.	

~~CALCULI FROM MEN AND ANIMALS.~~

INTESTINAL, BILIARY, RENAL, SALIVARY, PULMONARY, ETC.

1. Litho-fellinic acid. Royal College of Surgeons, . . . . .	1 calculus.
2. Rezin bezoar, do do . . . . .	1 calculus.
3. Phosph. Ammonia and Magnesia, from the urinary bladder of the pig, . . . . .	4 fragments.
4. Phosphate of lime, urinary bladder of whale, . . . . .	2 fragments.
5. Oat ball—human. Intestinal, . . . . .	2 do
6. do do do . . . . .	1 do
7. Calculus, renal. Cow, . . . . .	1 calculus.
8. Calculi, (pearls,) oyster, . . . . .	
9. Calculus, vesical. Lama, . . . . .	1 calculus.
10. do intestinal. Horse, . . . . .	fragments.
11. do do do nucleus, a fragment of a nail, . . . . .	6 fragments.
12. Calculus, urinary. Rat, . . . . .	1 calculus.
13. do gastric. Calf. A dark rezinous looking mass, formed on and about a pocket handkerchief swallowed by a calf. Removed after death, . . . . .	1 calculus.
14. Calculus, intestinal. Horse. Nucleus, a fragment of nail. Phosphate of lime, . . . . .	4 fragments.
15. Calculus from lung. Human, . . . . .	2 fragments.
16. do do . . . . .	2 calculi.
17. Salivary. Human, . . . . .	1 calculus.
18. do do . . . . .	2 calc., 2 fragm.
19. do duct of Wharton. Human, . . . . .	1 calculus.
20. do Human, . . . . .	1 do
21. Concretion from upper lip, . . . . .	

HAIR, OAT AND GRASS BALLS.

22. Hair ball. Crust inorganic, . . . . .	1 fragment.
23. Oat ball, intestinal. Horse, . . . . .	1 do
24. Hair ball, dark and polished, . . . . .	1 do
25. do yellow. Cow, . . . . .	1 do
26. do Cow. From the collection of Dr. Jenner, (1828), . . . . .	1 do

## HAIR, OAT AND GRASS BALLS.

27. Grass balls. Ox. Dark green intestinal,..... 2 fragments.  
 28. Hair ball. Cow,..... 1 do  
 29. Calculus, intestinal. From horse. R. C. S.....  
 30. do do do do ....  
 31. do do do do ....  
 32. do do do do ....  
 33. do do do do ....  
 34. Oat ball. Human. Royal College of Surgeons,..  
 35 do do do do  
 Total—35 specimens.

## HUMAN CALCULI.

## RENAL, VESICAL, URETHRO-VESICAL, URETHRAL.

1. From the Pelvis of the kidney,..... 1 calculus.  
 2. Extracted from a cyst in the wall of the urethra,.. 7 calculi.  
 3. Urethral,..... fragment.  
 4. do ..... 2 calculi.  
 5. do ..... 2 calc., 2 fragm.  
 6. do ..... 1 calculus.  
 6 $\frac{1}{2}$ . do ..... 1 do  
 7. Urethro-vesical. Phosphatic, ..... 1 do  
 8. do ..... 1 do  
 9. do Nucleus, a pin,..... 1 do  
 10. Vesical mustard-seed calculi, passed. Uric acid, ..  
 11. do do .....  
 12. Urethral. Nucleus a clot of blood. Crust uric acid, fragments.  
 13. Vesical. Passed,..... 8 calculi.  
 14. do Phosphatic. Nucleus, a piece of sponge, fragments.  
 15. do Fibrinous. Nucleus a pin,..... 1 calculus.  
 16. do Nucleus a pin,..... 1 do  
 17. do A soft double nucleus,..... 1 do  
 18. do Deposit, passed. Musée Dupuytren. sand.  
 19. do Uric acid. Presented by M. Civiale,.... 1 fragment.  
 20. do Deposit, passed in one day. Urate of soda, 5*i.*  
 21. do do Phosph. of ammonia and magnesia.  
 22. Vesical. Phosphatic,..... 1 fragment.

184.	do	Phosphatic, . . . . .	do
185.	do	Post-mortem specimen. Dr. Webster,	1 calculus.
186.	do	Cut from Alderman Ireland, by T. D. Mütter. Weight, 8 oz, . . . . .	fragments.
187.	do	Cut by Dr. Physick, from the bladder of Chief Justice Marshall. Presented by Dr. Randolph, 6 calc. and fragments.	
Total number of vesical calculi—188.			

*Cast of calculi*

CASTS.

1. Cast of the Ogleby calculus.
2. Cast of calculus extracted, post-mortem, by Winterhooven, Brussels. Presented by C. D. Meigs, M. D.
3. Cast of cholesterin calculus, (biliary.) Filling the entire gall bladder.
4. Brick dust, used by a patient to imitate urate of soda deposits.
5. Piece of brick, shaped to imitate a calculus, and so employed by an hysterical patient. Museum of Albany Medical College.

Total number of casts—5.

NUMBER OF SPECIMENS.

Biliary Calculi. Human,.....	55
Intestinal, biliary, salivary and other calculi, from men and animals,.....	35
Renal, urethral and vesical calculi. Human,.....	188
Casts and fictitious calculi and deposits,.....	5
 Total,.....	 283
